

Innovative features of "Portable pool lift"

This pool lift has been developed by our skilful engineers after years of experience in providing solutions for people with disabilities. Although designed for wheelchair users, this hoist can assist anyone who struggles to get in and out of a swimming pool. Our company aims to give a real help to those inner needs that are frustrated by everyday difficulties by making a free life whenever you are.

Our company is happy to show our

"Portable pool lift"
for people with disabilities

BluOne is a device that can transfer people to and from pools, dressing rooms and other places in an easy, smooth and safe manner. BluOne is easy to use. The person simply sits on the seat at the front and is pushed to the edge of the pool. Simply operate the brake and lock in position, press the down button and the swimmer is lowered into the pool.

It is sufficient to press the up button to lift the seat again and bring it back to the original position.

"The portable lift BluOne" **Is equipped with 5 safety levels**

1 Key starter and emergency stop red mushroom.

2 Handbrake. The Up and Down controls will not operate unless the handbrake is set.

3 As the arm lowers two steel rubber capped supports provide additional stability

4 The lift is equipped with an emergency manual pump. Use it in case of electrical power failure.

5 Rubber stoppers between front and rear wheels to prevent the lift being able to be pushed into the water.
